Nasogastric Tubes	Var Sizes	10
Foley Catheter	Var Sizes	10
<b>Cart</b>		
Storage Cart with Wheels		1

Kit should contain items that are considered either disposable or not controlled. For **medications**, a recommendation is added to each area where needed but not considered essential for stocking this unit.

<sup>2</sup> Capital items should be available to this kit but are not essential for purchase to solely be within that kit.

ET Tube Holders should not be used on burn patients.

Changed, added or removed based on feedback
